HE WAS HELD UP

Wm. Blakely, Who Was Arrested.

Other than the usual number of sleepers, there was but one lodger at the city jail over Sunday. The city generally was exceedingly quiet and Ruhlin and Charles Green and Art had it not been for Felix Hultz, the police would have scored a blank for pants in two fights which took place and make their records take a sudden jump. Felix appeared at the city hall at about 8 o'clock Saturday night and had a warrant issued for the arrest of William ("Biddie") Blakely, charging him with pocket picking.

Blakely is a well known local character, having worked in the potteries for years as a presser. The officers were all told that he was wanted and during all of Saturday night a search was made for him, but though his loafing places, his home and every other place where it was thought he might be, were visited, he could not be located. One officer, however, was close enough to him at one time to lay hands on him. Officer Aufderheide was the lucky policeman. He found Blakely yesterday afternoon in a beastly state of intoxication and had him hauled to the city jail. He was too drunk at the time to tell whether or not he was guilty and the charge was not read to him until this morning, when he pleaded not guilty before the mayor.

Felix said that Blakely held him up and he was positive that he was not mistaken in his man. He alleged that Blakely stopped him near the brewery. asked him for a chew of tobacco and when refused, boldly reached down in his trousers pocket and took from it

Blakely said this morning that he remembered of seeing Felix in the saloon but did not see him afterward. The mayor set the preliminary hearing for this afternoon. The testimony being so flimsy, Felix having no witnesses, it is thought the mayor will dismiss the case.

From a Staff Correspondent. Columbus, December 21.-Governor

Nash has again donned the gloves, and just to keep his hand in, will take a crack at four pugilists who had the temerity to engage in two bouts at Akron, Thursday night. Since the governor issued his defi against prize fights soon after taking office, frequent attempts have been made by the shorthaired fraternity to pull off bouts, but in most cases they were frustrated, pionship from the governor have failed utterly. Until he retires, which will be on January 11, he will not relined word Friday afternoon that Gus Sims and Frank Cassidy were particicalled Attorney General Sheets into consultation and soon issued his ultimatum, which was that the latter official should taks steps immediately to cause the arrest of the fighters and about 400 "sports" who witnessed them. If anything like the entire number is rounded up it is doubtful if the Akron jail will hold all the culprits. The attorney general will have the co-operation of the Summit county prosecutor in his efforts to punish the principals, promoters and witnesses.

The supreme court has held that the notes held against the estate of the late P. P. Mast, of Springfield, by George W. Thatcher for sums aggregating nearly a half million dollars are worthless, which relieves the heirs of their payment. Thatcher's escapades brought him much notoriety of questionable character. He claims the notes were given him by Mast for recovering a portion of the Blackburn estate in England, which the heirs, many of whom reside in Columbiana reclaim. The heirs of Mast claimed the notes were forgeries and caused the arrest of Thatcher, but he seemed always to have the faculty of wriggling out of his difficulties one way or anoth-

"Upon a review of General Wood's entire military record," says the secretary of war, "I think it fair to say that no officer of the American army below the grade of major general has held more important commands, rendered more distinguished service, or demonstrated to a higher degree the possession of the qualities which fit a man to render valuable services to the country as a major general." It is now up to those who think they know more about this matter than the head of the war department does to prove that they are as well posted as they claim to be.

The Atlanta Constitution, the strongest Democratic newspaper of the south, vigorously endorses President Roosevelt's position on the canal question and administers merited rebuke to those demagogues and partisans, who, merely for political buncombe, would delay one of the most vitally important improvements this government has ever undertaken. It is a welcome surprise to see a Democratic paper that has the courage to rise occasionally and consider the country's good rather than the party's.

During the year ending June 30,1903, 326 passengers and 3,233 employes were killed, 6,973 passengers and 39,004 employes injured. This casualty list is in itself appalling, but when compared with the small number of lives lost in the operation of English inal. A bill is now before congress compelling every railroad to adopt the block system of signals. It would not prevent all accidents, but would prevent many, and ought to pass without hesitation.

The annual report of the interstate commerce commission, showing the operations of the railroads for the year ending June 30, 1903, is a strong index of the country's condition. The gross earnings have increased since 1897 from \$6,122 per mile to \$9,382 per mile. nearly 50 per cent. At the same time, the operating expenses have increased over \$2,000 per mile, a large per cent of which is due to advance in wages.

The agreement of 350 clergymen in Rhode Island to exercise greater care in the future in marrying divorced persons deserves to be imitated in other states. If the ministers can persuade the justices of the peace to join them in their praiseworthy resolution, they may accomplish a reform worth hav-

After the Louisiana purchase centennial, the next great historical event to be celebrated is the three hundredth anniversary of the English settlement at Jamestown, Va., which falls due in 1907. "Upon a review of General Wood's entire military record," says the secretary of war, "I think it fair to say that no officer of the American army below the grade of major general has held more important commands, rendered more distinguished service, or demonstrated to a higher degree the possession of the qualities which fit a man to render valuable services to the country as a major general." It is now up to those who think they know more about this matter than the head of the war department does to prove that they are as well posted as they claim to be.

The Atlanta Constitution, the strong est Democratic newspaper of the south, vigorously endorses President Roosevelt's position on the canal question and administers merited rebuke to those demagogues and partisans, who merely for political buncombe, would delay one of the most vitally important improvements this government has ever undertaken. It is a welcome surprise to see a Democratic paper that has the courage to rise occasionally and consider the country's good rather than the party's.

During the year ending June 30,1903, 326 passengers and 3,233 employes were killed, 6,973 passengers and 39,-004 employes injured. This casualty list is in itself appalling, but when compared with the small number of lives lost in the operation of English railways, it seems little short of criminal. A bill is now before congress compelling every railroad to adopt the block system of signals. It would not prevent all accidents, but would prevent many, and ought to pass without

Arrangements are under way for the Christmas Sunday school entertainment and treat to be given by the Presbyterian Sunday school on Friday evening of this week. An elaborate program is being prepared, and the affair will be both entertaining and enjoyable. The Chester Presbyterian Sunday school is one of the largest and most prosperous in the town, and a special effort is being made to please the scholars.

The Fair for the Benefit of the Sacred Heart Church a Pronounced Success

The fair conducted by Sacred Heart church of Chester at Rock Springs pa vilion last week closed Saturday evening and was one of the most successful church functions ever conducted in the town. The committee earned nearly \$1,200.

The attendance Saturday night was very good and the program was interesting. The world's fair contest was won by P. J. Davis, of Wheeling Juncto the big exposition at St. Louis.

It was stated by the members of the committee that the proceeds from the late fair, together with the money in hand, will nearly if not fully liquidate the debt owed by the congregation on the magnificent parsonage purchased some time ago.

Shoe Satisfaction.

The only indispensable thing about shoes is that the wearer shall be at peace with them. This means that she shall be satisfied.

It seems a simple thing to ask, but it is difficult

to obtain. For no woman can be at peace with her shoes unless they are comfortable. And no shoes can be

comfortable unless they fit. If you want to know

how a perfect fit feels to your foot, try on a pair of these shoes. It will be a revelation in comfort.

YOU HAVEN'T BOUGHT YOUR SWEETHEART

Your mother, sister or wife an umbrella for two years. Don't you think it about time you were buying them one. We have the largest line of them in the city. Prices from 50 cents up to \$12.00 each. Come and see them and many more handsome gifts suitable for Christmas presents.

WE DON'T BUNCH OUR CLOTHING

And tell you to pick them out. We don't think it a fair way of doing business. You may think your are getting a bargain on a suit when they are all put in a bunch at so much for your choice, but you may get a suit that is really only worth what you pay for it, or per. haps even less. Now that is not giving you what you expect, is it? You are expecting a reduction and you are not getting it. Is that a fair way to do business?

Now what we are doing is this: All our Overcoats and Suits have the old tickets on them with the original price marked in plain figures. Now if you buy a suit or an overcoat that is marked \$20.00, you take off 25 per cent discount; which makes the suit or overcoat cost you \$15.00, or if you pick out a suit that is marked say \$18.00, you take off our discount of 25 per cent and it costs you only \$1350, and so on down the list, You get 25 per cent off on any suit or overcoat you buy, so you get a fair deal all around. Is not this plain sailing for you. Buy your husband, son or brother a suit or an overcoat for a Christmas present and buy it early.

"Special For the Holidays"

YOU HAVEN'T BOUGHT YOUR SWEETHEART

Your mother, sister or wife an umbrella for two years. Don't you think it about time you were buying them one. We have the largest line of them in the city. Prices from 50 cents up to \$12.00 each. Come and see them and many more handsome gifts suitable for Christmas presents.

WE DON'T BUNCH OUR CLOTHING

And tell you to pick them out. We don't think it a fair way of doing business. You may think your are getting a bargain on a suit when they are all put in a bunch at so much for your choice, but you may get a suit that is really only worth what you pay for it, or per. haps even less. Now that is not giving you what you expect, is it? You are expecting a reduction and you are not getting it. Is that a fair way to do business?

Now what we are doing is this: All our Overcoats and Suits have the old tickets on them with the original price marked in plain figures. Now if you buy a suit or an overcoat that is marked \$20.00, you take off 25 per cent discount; which makes the suit or overcoat cost you \$15.00, or if you pick out a suit that is marked say \$18.00, you take off our discount of 25 per cent and it costs you only \$13 50, and so on down the list, You get 25 per cent off on any suit or overcoat you buy, so you get a fair deal all around. Is not this plain sailing for you. Buy your husband, son or brother a suit or an overcoat for a Christmas present and buy it early.

MISTAKE OF A LETTER

Made Rev. W. E. Hill Say Something He Did Not Think or Write.

To the Editor of the News Review: Perhaps you have heard of the case a column, gave "Shoot folly as she "want" ads. flies.-Pope," but by the elimination of a single letter and the displacement of another the unfortunate typo made it read thus: "Shoot Polly as she flies, Pop."

In my article on "Success" in your holiday issue a similar error occurs, not so startling perhaps, but scarcely less perilous to the original meaning. As printed this sentence occurs: "This (enviable) situation is attainable by all who have wealth and practical knowledge of their business."

The displacement of a single letter in the foregoing sentence made may say just the opposite of what I wanted to say. I did not want to say that wealth is the secret of success, but rather that which makes success is the secret of wealth. Substitute the letter "h" for the letter "w" in the word "wealth" and you will have my meaning and what I wished to say.

It is only fair to the News Review to say that in my several contributions to its columns the text is remarkably free from typographical errors and shows skillful and conscientious proofreading. Yours sincerely,

W. E. HILL.

MISTAKE OF A LETTER

Made Rev. W. E. Hill Say Something He Did Not Think or Write.

To the Editor of the News Review: Perhaps you have heard of the case

of the editor, who, wanting to fill out | Home news complete in this paper. a column, gave "Shoot folly as she "want" ads. flies.-Pope," but by the elimination of a single letter and the displacement of another the unfortunate typo made it read thus: "Shoot Polly as she flies. Pop."

In my article on "Success" in your holiday issue a similar error occurs, not so startling perhaps, but scarcely less perilous to the original meaning. As printed this sentence occurs: "This (enviable) situation is attainable by all who have wealth and practical knowledge of their business."

The displacement of a single letter in the foregoing sentence made may say just the opposite of what I wanted to say. I did not want to say that wealth is the secret of success, but rather that which makes success is the secret of wealth. Substitute the letter "h" for the letter "w" in the word "wealth" and you will have my meaning and what I wished to say.

It is only fair to the News Review to say that in my several contributions to its columns the text is remarkably free from typographical errors and shows skillful and conscientious proofreading. Yours sincerely,

W. E. HILL.

by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that is
by constitutional remedies. Deafness is
caused by an inflamed condition of the mucous lining of the Eustachian Tube. When
this tube is inflamed you have a rumbling
sound or imperfect hearing, and when it is
entirely closed, Deafness is the result, and
unless the inflammation canbetaken out and
this tube resiored to its normal condition,
hearing will be destroyed forever; nine
cases out of ten are caused by Catarrh, which
is nothing but an inflamed condition of the

Cleveland, Dec. 21.—Roscoe W. Burglars also held ap and robbed J B. Yeager, a grocef, roing him at old, exterminated his family Sunday morning by shooting his wife, his three children and then himself. The crime is believed to have been due to despondency over the impoverished condition of the family and the approach of Christmas. The wife was killed first, while sleeping at her husband's side; two of the children were killed as they ran through the house in the darkness endeavoring to escape. The third child was killed in

The Dead Are: Roscoe W. Derby.

Mrs. Della Derby. Harold Derby, age 8 Alice Derby, age 7. Thomas Derby, age 5.

Derby had been down town as late as 11 o'clock Saturday night, ostensibly shopping, but in all probability securing ammunition for his revolver. When he got home his wife and he talked with a neighbor who had been calling over the approaching festival. Derby seemed pale and nervous. The orime is believed to have been committed about 4 o'clock Sunday morning. Two of the children probably had a struggle with their infuriated parent, because they had been awakened by the noise of the revolver. Harold's body was found lying in a pool of blood in the kitchen, and that of Alice in the dining room with her face to the floor and a bullet in her breast. Harold may have been chased by his father, as there was evidence of flight in the manner in which the furnishings of the kitchen were thrown about. From the location of the bullets in his head the boy evidently was caught by his father in a strong grasp and held while the weapon was placed against the little fellow's forehead and the bullet sent into his brain.

There was also evidence of a struggle on Alice's part. The last of the children to die was Thomas, aged 5. He had remained in bed probably still asleep and also received bullets into his head, dying instantly. After the crimes had been committed the perpetrator went into the bedroom, where his wife had been killed and lying down at her side fired a bullet into his own brain.

A number of pool room race checks were found about the house, showing that Derby had been trying his luck on betting.

Derby Saturday wrote a letter to a friend to the effect that when it had been received the Derby family would been promised was seen to have been

ROOT COMMENDS GEN. WOOD.

Telle Senatore No Other Officer le More Worthy of Premetion.

Washington, Dec. 21 .- The letter of Secretary Root to Senator Proctor, acting chairman of the committee on military affairs, dated Nov. 18, giving the chief considerations which led to acter. his nomination as a major general, has been made public. After quoting from remarks complimentary to Gen. recites that "upon these and similar voted herself to distributing her en-evidences of fitness President McKin- tire fortune to the poor. She had evidences of fitness President McKin-ley appointed Captain Wood colonel of lived with a son at Webster for more the First Voluntary Cavalry in May,

1898." The secretary concludes: "Upon a tary record, I think it fair to say that | der restraint, no officer of the American army below the grade of major general has held more important commands, rendered more distinguished service or demonstrated to a higher degree the possession of the qualities which fit a man to render valuable services to the

country as a major general. "The law which recognizes seniority alone as the title to promotion up to the grade of colonel abandons that rule when it deals with general officers and imposes upon the president the duty of selecting the best men for generals without expressing any limitation upon the class from which he is to make the selection."

DEATHS ARE CONCEALED.

Serious Situation in Chicago Results from Drivers' Strike.

Chicago, Dec. 21.—Shrinking from the espiesage of union pickets and fearful that funeral parties would be attacked by the striking livery drivers, many Chicago families have refrained from publicly announcing their bereavement. In the vaults of several undertakers lie the bodies of persons about whose death the utmost secrecy is maintained and whose funerals will be postponed until after the settlement of the strike. In other cases the stricken relatives have arranged for evening funerals and private burials, of which no announce ment is made.

The scenes that attended several funerals held on Saturday, when pickets attempted to interfere with the removal of the bodies, have led the health department officials to sanction the secrecy that is being presery ed. The undertakers have been informed that unless public safety demands it burials will not be insisted on until such a time as funeral parties shall be safe from molestation.

WOMAN MURDERED.

Mysterious Crime Committed in New York Recalls Jack the Ripper.

New York, Dec. 21.-The Whitechapel atrocities of "Jack the Ripper" and the murder of "Old Shakespeare" by the Arab, Ben Ali, in this city were recalled by the discovery of the fearfully mutilated body of a woman in a sailors' resort of the lowest type in James Slip, near the East river. The woman, who was identified by Sarah Martin, went to the place accompanied by a man who appeared to be a Swede. The man left the hotel yesterday afternoon and an hour later

the body of his companion was found. The woman's throat had been cut and the body was otherwise frightfully mutilated. She had evidently been killed while asleep, as the condition of the room gave no indications be dead. When the friend hurried to that a struggle had taken place. The

ASSETS WORTH LITTLE.

Indian Officials Heavily Indebted to Defunct Chickasaw Bank.

Ardmore, I. T., Dec. 21 .- The liabilities of the bank of Chickasaw Nation, which failed recently, are \$79,000 and the assets \$167,000, according to a supplemental report just made public by Receiver Foster, who says the assets are of little or no value. Receiver Foster intimates that fraud has been practiced and that false entries have been made.

It also develops that prominent Indian officials who were directors in the bank are indebted to it in the sum of \$80,000. President Kirby Purdom left town on the day following the failure.

Poverty Drives Poor Mechanic to End Troubles With Revolver-Murders

Executed With Deliberate Cunning -Babes Try Vainly to Escape.

Cleveland, Dec. 21.-Roscoe W. Derby, a machinist, about 45 years old, exterminated his family Sunday morning by shooting his wife, his three children and then himself. The crime is believed to have been due to despondency over the impoverished condition of the family and the approach of Christmas. The wife was killed first, while sleeping at her husband's side; two of the children were killed as they ran through the house in the darkness endeavoring to escape. The third child was killed to

The Dead Are: Roscoe W. Derby.

Mrs. Della Derby. Harold Derby, age 8 Alice Derby, age 7. Thomas Derby, age 5.

Derby had been down town as late as 11 o'clock Saturday night, ostensibly shopping, but in all probability securing ammunition for his revolver. When he got home his wife and he talked with a neighbor who had been calling over the approaching festival. Derby seemed pale and nervous. The crime is believed to have been committed obout 4 o'clock Sunday morning. Two of the children probably had a struggle with their infuriated parent, because they had been awakened by the noise of the revolver. Harold's body was found lying in a pool of blood in the kitchen, and that of Alice in the dining room with her face to the floor and a bullet in her breast. Harold may have been chased by his father, as there was evidence of flight in the manner in which the furnishings of the kitchen were thrown about. From the location of the bullets in his head the boy evidently was caught by his father in a strong grasp and held while the weapon was placed against the little fellow's forehead and the bullet sent into his brain.

There was also evidence of a struggle on Alice's part. The last of the children to die was Thomas, aged 5 He had remained in bed probably still asleep and also received bullets into his head, dying instantly. After the crimes had been committed the perpetrator went into the bedroom, where his wife had been killed and lying down at her side fired a bullet into his own brain.

A number of pool room race checks were found about the house, showing that Derby had been trying his luck on betting.

Derby Saturday wrote a letter to a friend to the effect that when it had been received the Derby family would be dead. When the friend hurried to the house Sunday morning all that had been promised was seen to have been fulfilled.

DEATHS ARE CONCEALED.

Serious Situation in Chicago Results from Drivers' Strike.

Chicago, Dec. 21.-Shrinking from the espionage of union pickets and fearful that funeral parties would be attacked by the striking livery drivers, many Chicago families have refrained from publicly announcing their bereavement. In the vaults of several undertakers lie the bodies of persons about whose death the utmost secrecy is maintained and whose funerals will be postponed until after the settlement of the strike. In other cases the stricken relatives have arranged for evening funerals and private burials, of which no announce ment is made.

The scenes that attended several funerals held on Saturday, when pickets attempted to interfere with the removal of the bodies, have led the health department officials to sanction the secrecy that is being presery ed. The undertakers have been informed that unless public safety demands it burials will not be insisted on until such a time as funeral parties shall be safe from molestation.

WOMAN MURDERED.

Mysterious Crime Committed in New York Recalls Jack the Ripper.

New York, Dec. 21.-The Whitechapel atrocities of "Jack the Ripper" and the murder of "Old Shakespeare" by the Arab, Ben Ali, in this city were recalled by the discovery of the fearfully mutilated body of a woman in a sailors' resort of the lowest type in James Slip, near the East river. The woman, who was identified by Sarah Swede. The man left the hotel yesterday afternoon and an hour later the body of his companion was found.

The woman's throat had been cut and the body was otherwise frightfully mutilated. She had evidently been killed while asleep, as the condition of the room gave no indications that a struggle had taken place. The man carried two bundles, which were found in the room and which may afford a possible clue to the murder.

this, certain banking interests are urg-

than government bonds as security for

noninterest bearing money presented by the government. The demand for

government bonds as a pledge against

these cash donations has become so

great that the banks cannot secure

them except at prices they are unwill-

any old kind of bond or stock. But our

secretary of the treasury is cautious.

He doubts the wisdom of passing a law

Are there any other questions you desire answer-

"Lots of them, judge; lots of them," returned Colonel Monroe. "This free distribution of the nation's wealth by its treasury department fairly bristles with interrogation points from my viewpoint. But do not imagine that l censure you for accepting \$40,000 of to draw interest on your bonds just this free cash. Next to myself, I would the same as if they were in your vaults sooner see you get it than any one I instead of in mine. I will charge you know of. It means, on the face of it, no interest on this money, but you can \$2,000 a year clear profit to you."

"This free distribution of cash, as you call it, is a better thing for the country than it is for the bankers," declared Judge Sawyer. "The revenues of the government are so large that vast sums of money are piled up in the national treasury and withheld from circulation. There is now at the command of the national government more than \$450,000,000 in cash. To board inal rate of interest, say 2 per cent. These banks deposit government bonds with the government as security for the money turned over to them. There is not the slightest chance that the government will lose a dollar of the money thus deposited."

"For a genuine humorist give me a banker," remarked Colonel Monroe. None but members of your craft could keep'a straight face while making such a statement. Here is the straight English of it: Money commands interest in every part of the civilized globe at all times and in all circumstances, with the single exception of when it happens to be lodged in the treasury of the United States. The interest rate is roughly fixed by the law of supply borrower. The mere fact of the possession of money guarantees its holder an income. Money, therefore, is the best form of property in the world. What has happened? The people have been taxed so heavily on the necessities and ordinary comforts of life that a surplus has piled up in the national treasury. Every dollar of it represents some form of taxation. Every cent of it is the people's money. The govern-ment owes a billion and a balf, on which it is paying interest. Can it pay off a part of this debt? Bless your heart, that is against the rules. The government can go into debt, but it must not get out of it. Here is this unfortunate government with \$400,000,-000 or more of cash. What shall it do with it? It is not permitted to pay its honest debts. It has an asset which in other hands would have an income producing value of from \$16,000,000 to \$20,000,000 a year.

"Now, mark you," continued Colonel Monroe, "this is one of the greatest governments on the face of the globe. It is a most stupendous organization. It employs hundreds of thousands of men. When but a pygmy compared with its present self it withstood the greatest civil war which ever was

An absurd system can be bolstered up only by absurd expedients. We have seen by limit of the grotesque in the relations which exist between the banks and the government. You can make no comparison which will be so paradoxical as the facts." "The government should go out of

the banking business," asserted Judge Sawyer.

"The banks should go out of the government business," retorted Colonel Monroe, "If a modern government has one legitimate and paramount duty, it is to assume the direct responsibility for the circulation of the money which it has created. We have almost reached the time when the government will be the banker or the banker the government. I shall live long enough to cast my vote and influence in favor of the government"

William Ziegler, Who Was Indicted

William Ziegler, multimillionaire president of the baking powder trust, who was recently indicted by a Missouri grand jury charged with bribing members of the state legislature, is widely known as the financial backer of several expeditions to discover the north

The indictment is the culmination of a long and sensational series of scandals growing out of "pure food" legislation in Missouri in 1899 and 1901 and is said to have been secured through the testimony of E. B. Baldwin, who was in charge of the first expedition sent north by Mr. Ziegler.

he got he found in a shanty schoolhouse on the prairies. He early developed a nose for business and earned his first money cleaning fresh hides.

By the time he had reached his mafority Ziegler had accumulated a few hundred dollars and started out for himself, landing in the city of Brooklyn, now a part of New York city, about thirty-five years ago.

Mr. Ziegler appeared to possess the touch of Midas. His wealth increased giving them \$40,000,000 enormously, and in a few years he became one of the richest men in Brooklyn. How much he is worth he alone knows, but his wealth is variously estimated at from \$30,000,000 to \$50,000,

> In 1900 Mr. Ziegler equipped a polar expedition which, under the command of Evelyn B. Baldwin, the explorer, endeavored to reach the north pole by way of Franz-Josef Land. Two years later a second expedition was sent north to the relief of Baldwin, who had failed.

Dissatisfied with the result of Baldwin's work, Mr. Ziegler organized a third expedition last March composed entirely of Americans. Michael Angelo

Michael Angelo, while painting "The Last Judgment," fell from his scaffold and received a painful injury in the leg. He shut himself up and would not see any one. Bacio Rontini, a celebrated physician, came by accident to see him. He found all the doors closed. No one responding, he went into the cellar and came upstairs. He found Michael Angelo in his room, resolved to die. His friend the physician would not leave him. He brought him out of the peculiar frame of mind into which he had fallen.

ENGLAND FEARS WAR

Relations Between Russia and Japan Becoming

HOLDING BACK UNTIL SPRING

Acute.

Muscovite Fears Attitude of Great Britain and China and Also Stands in Awe of Strong Japanese Fleet in Northern Asian Waters.

Pekin, Dec. 21.—The report cabled from Tien Tsin to London to the effect that Japan had sent an ultimature to Russia is discredited here and no information of a corroborative nature is in the possession of the foreign legations.

While the knowledge of the legations on the situation leads to the belief that the sending of an ultimatum is improbable, the prospects of war are increasing. The British legation some days ago received a telegram in dicating that was was possible and the Japanese legation is officially informed that Russia's recent reply to the Japanese proposals was unsatisfactory. It is recognized at the legation that a grave crisis is approaching. Major General Yamani, the Japanese military attache, and the Japanese colonel who has been instructing General Yuan Shai Kai's troops, have started for Japan.

London, Dec. 21.—The morning over the aspect of affairs in the far cargo. The sea is calm with light east, rather from the fear that some unforeseen incident may precipitate a conflict than from any belief that the resources of diplomacy have become exhausted, the opinion being still almost nuiversal that both Russla and Japan are anxious to avoid

The Morning Post, which is inspired in the Japanest interest, makes a suggestion which may possess significance-namely, that Japan should cut the gordion knot by declaring a protectorate over Korea. The paper contends that such a solution would commend itself to all the powers with the exception of Russia and that it might even be welcomed at St. Petersburg if it be true that Russia does not desire war.

The special cablegrams from the far east published in this morning's newspapers throw no new light on the situation, but all are agreed that Japan has not sent an ultimatum to

and that Russia does not want a war before she has consolidated her position in Manchuria. She is apprehensive, however, of the strength of the Japanese fleet and over the attitude of China and Great Britain. TURKEY WILL APOLOGIZE.

Sultan Orders Punishment of Assail sailants of Consul Davis.

Constantinople, Dec. 21.—The porte has agreed to the demands of the United States and has ordered the governor of Alexandretta to make ample apology to Consul Davis for the insults and assault to which he was subjected by the police of Alexandretta she only arrived at their conclusion. while he was escorting to a departing steamer a naturalized American citizen named Attarin, who had been liberated from prison through the interyention of Mr. Davis.

The porte notified the United States legation orally and in writing of the instructions telegraphed to the vali of Aleppo to order the governor of Alexandretta to call on Consul Davis immediately upon his arrival at Alexandr a and offer to him a complete apology. The porte has also promised to punish the police who assaulted Consul Davis and will allow Attarin to depart unhindered.

The United States cruiser San Francisco, which left Beirut Friday evening to take Consul Davis to Alexandretta, was expected to arrive there yesterday, and if the Turkish government carries out the program it has formulated the Alexandretta incident may be considered closed.

Chicago, Dec. 21 .- "The new world was discovered by Catholics and the cross was planted in the name of the church. We cannot get it out of our the new world again." This hope was expressed by Arch-

bishop James E. Quigley in an address before the Roman Catholic Woman's league last night. The archbishop declared that the security of the national constitution increases proportionately with the increase of the number of Roman Catholics. He urged the establishment of a subsidiary system of the public schools for the benefit of the Roman Catholics. This system "for the benefit of the minority," said the speaker, "should be paid for by the state, but controlled by the church." Finally he characterized the rule requiring candidates for public school teachers to have normal school training to be "tyranny" and "oppression."

"The supreme and fundamental er ror of the age is liberalism," urged the archbishop. "Liberalism delegates to the state all rights, and this is when the state and church conflicts."

The archbishop declared that the United States constitution stood for individualism. He asserted that to-
